

-3°/6° -2도씨 °C

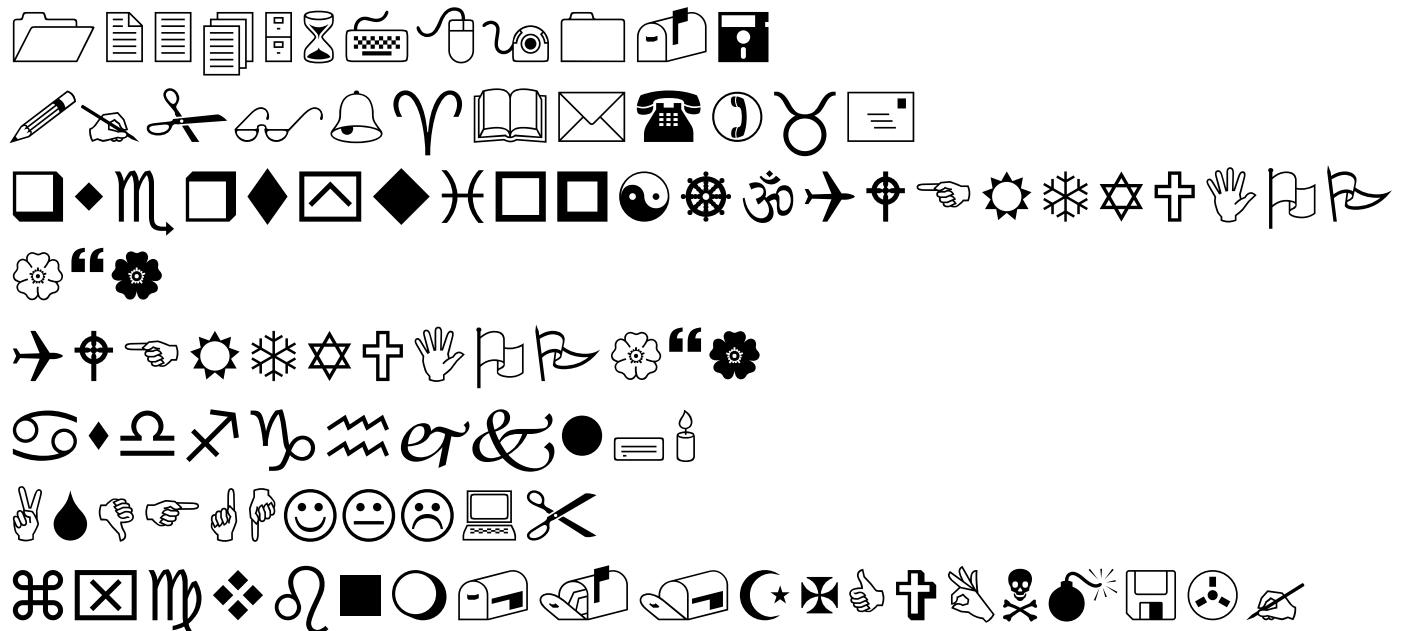

일반적으로 우리가 사용하는것이 섭씨이기 때문에 그냥 (°)만으로도

통용되지만 국제적 표시로는 반드시 °C를 사용해야 합니다.

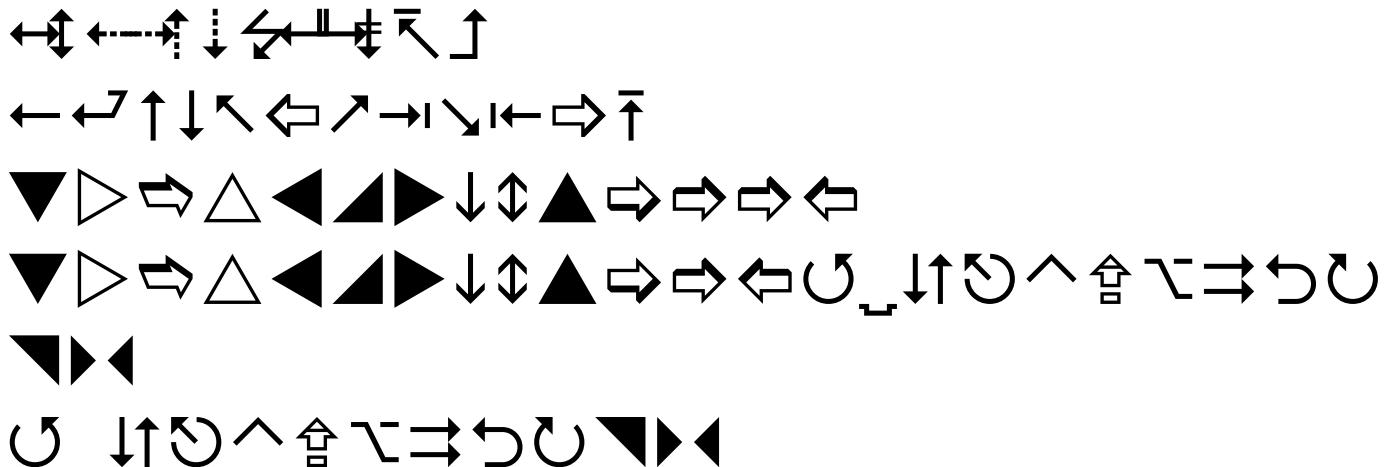

왜냐하면 미국같은 나라는 °C 와 °F를 혼용하기 때문에 화씨가 필요한

곳에서는 반드시 °C를 사용해야 합니다.

## Symbol

In general, we use Celsius, so just ( $^{\circ}$ )

It is commonly used, but the international mark must use °C.

Because countries like the United States use degrees Celsius and degrees Fahrenheit,

In this place, you must use °C.

-2도씨°C
